IT IS TIME ...

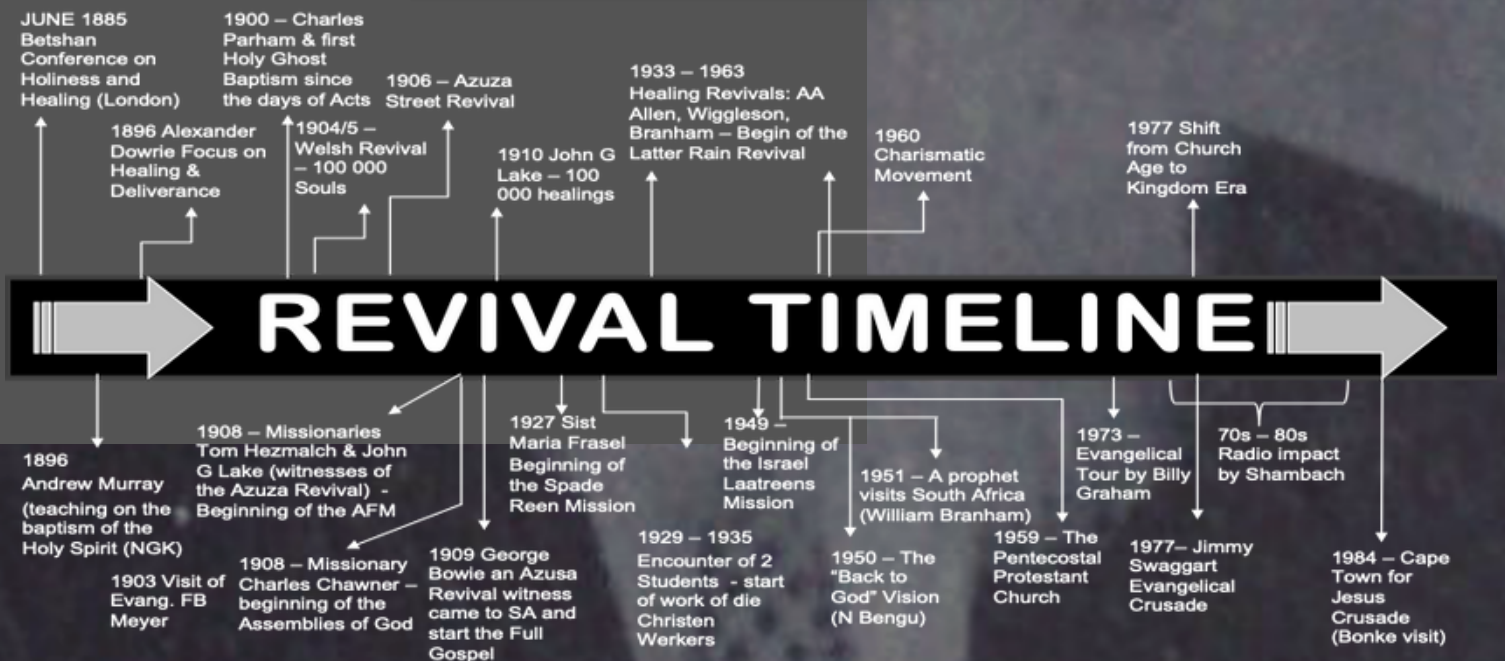

For God to Do it Again...

Discerning the time is important. Not understanding the time and season causes us not to recognise the fruit of that season.

It is true that those who do not learn from history are doomed to repeat its mistakes and it is for this reason that the bible records the things of scriptural history. The things that are recorded in it are to equip us with understanding to help us succeed. "And the Pharisees and Sadducees came up, and testing Him asked Him to show them a sign from heaven. But He answered and said to them, "When it is evening, you say, 'It will be fair weather, for the sky is red.' And in the morning, 'There will be a storm today, for the sky is red and threatening.' Do you know how to discern the appearance of the sky, but cannot discern the signs of the times?" (Matt 16:1-3)

Studying the books (timeline) was important for Daniel to understand that a prophecy has reached its expiry date and he petitioned God for the fulfillment of the promise associated with that prophecy. Looking at our timeline (below) we have learned that we now have reached the time of fullness that is called the season of the "Latter Rain".

WORLD

"A Hunger and Desperation for REVIVAL"

Since we started the "Do it Again, Lord" campaign, we have clearly noticed that there is a great hunger for revival in our churches and communities. The opening of the ancient wells dug by our ancestors clearly led us to truths stopped up by persons who could not connect history with the present.

Doing this campaign, we have realised that "We have hit Gold". Our revival talks on KruiskykTV awakened many who thought that God had forgotten or even the promises and prophecies would no longer be fulfilled. Clearly there are now more intercessors, prayer warriors and discouraged people, who now want to open up those wells of old that were stopped up and who now want to return to what God has given the church and this generation.

In September, we will focus more on the lessons that each revival brought and how we can align ourselves to prepare God to do what He did earlier. Our panel is expanded with Jerome Hindley. Jerome is one of the founders of Operation Harvest. When Joe Ruiters shared the vision of the harvest with him, he replied that this is none other than an operation in the quest of the final harvest. He is the grandchild of the late Pastor James Hindley (the first leader of "Die Christen Gemeentes" – Sir Lowry's Pass). <https://kruiskyk.tv/joseph-ruiters-rivival-do-it-again-lord>

WE REMEMBER - Frank Weber

Our featured picture is Brother Frank Weber.

He was a missionary evangelist with a vision, mission and mandate regarding the Great Commission. Evidence shows that he never belonged to a specific church and worked across church borders. His message of the unadulterated truth of the Gospel caused him to be persecuted by many believers and unbelievers.

God was everything to him. When he applied for a house for his family from the City Council, he completed the application form that his employer is GOD, his occupation is "I AM IN HIS SERVICE" and his salary / income "AS THE LORD PROVIDES".

His life story is captured in a book written by his son, Victor.

CAPE TOWN is set for REVIVAL

Many of our forefathers and pioneers have shared visions and dreams of the great revival that will start at the southern tip of South Africa, Cape Town. In the last edition I shared about the "Back to God" vision of the late Rev. N Bengu. Confirmation is established by means of two and three testimonies. We are aware of many independent confirmations regarding Cape Town and South Africa.

God does not delay His promise like some, but fulfills it. The closer we get to the day of fulfillment, all the signs and even the timeline indicate that Cape Town is the place for a revival.

An extract of a prophecy: "The revival fires that were going to be released would be contagious and people would come without the need for any marketing or prominent speakers — Jesus would be the main speaker. It was going to be an indigenous revival that would spread to the world and it was necessary to prepare a new wineskin to host it."

If I look at the statistics of Cape Town, it is similar to what prevailed in Wales before their great revival. Unemployment, social misconduct, crime, economic imbalance, political uncertainty, spiritual division and so much more, were the order of the day. Does this not bode similar to what we see in Cape Town and South Africa.
